

KAMINIARZ
— 1926 —

GLOBAL
SUPPLIER
OF BACON!

1926

Global supplier of bacon!

KAMINIARZ is a brand of a family-owned business which has been continuing a long and rich tradition in pork processing. The beginnings of the brand go back to 1926. In the early 1980s, in the third generation of the KAMINIARZ family, a decision was made to change the production profile and specialize in the production of bacon.

We have been setting the quality standards in bacon production for three decades now. By expanding our range with innovative premium-quality products and technologies, KAMINIARZ has become a synonym for supreme bacon

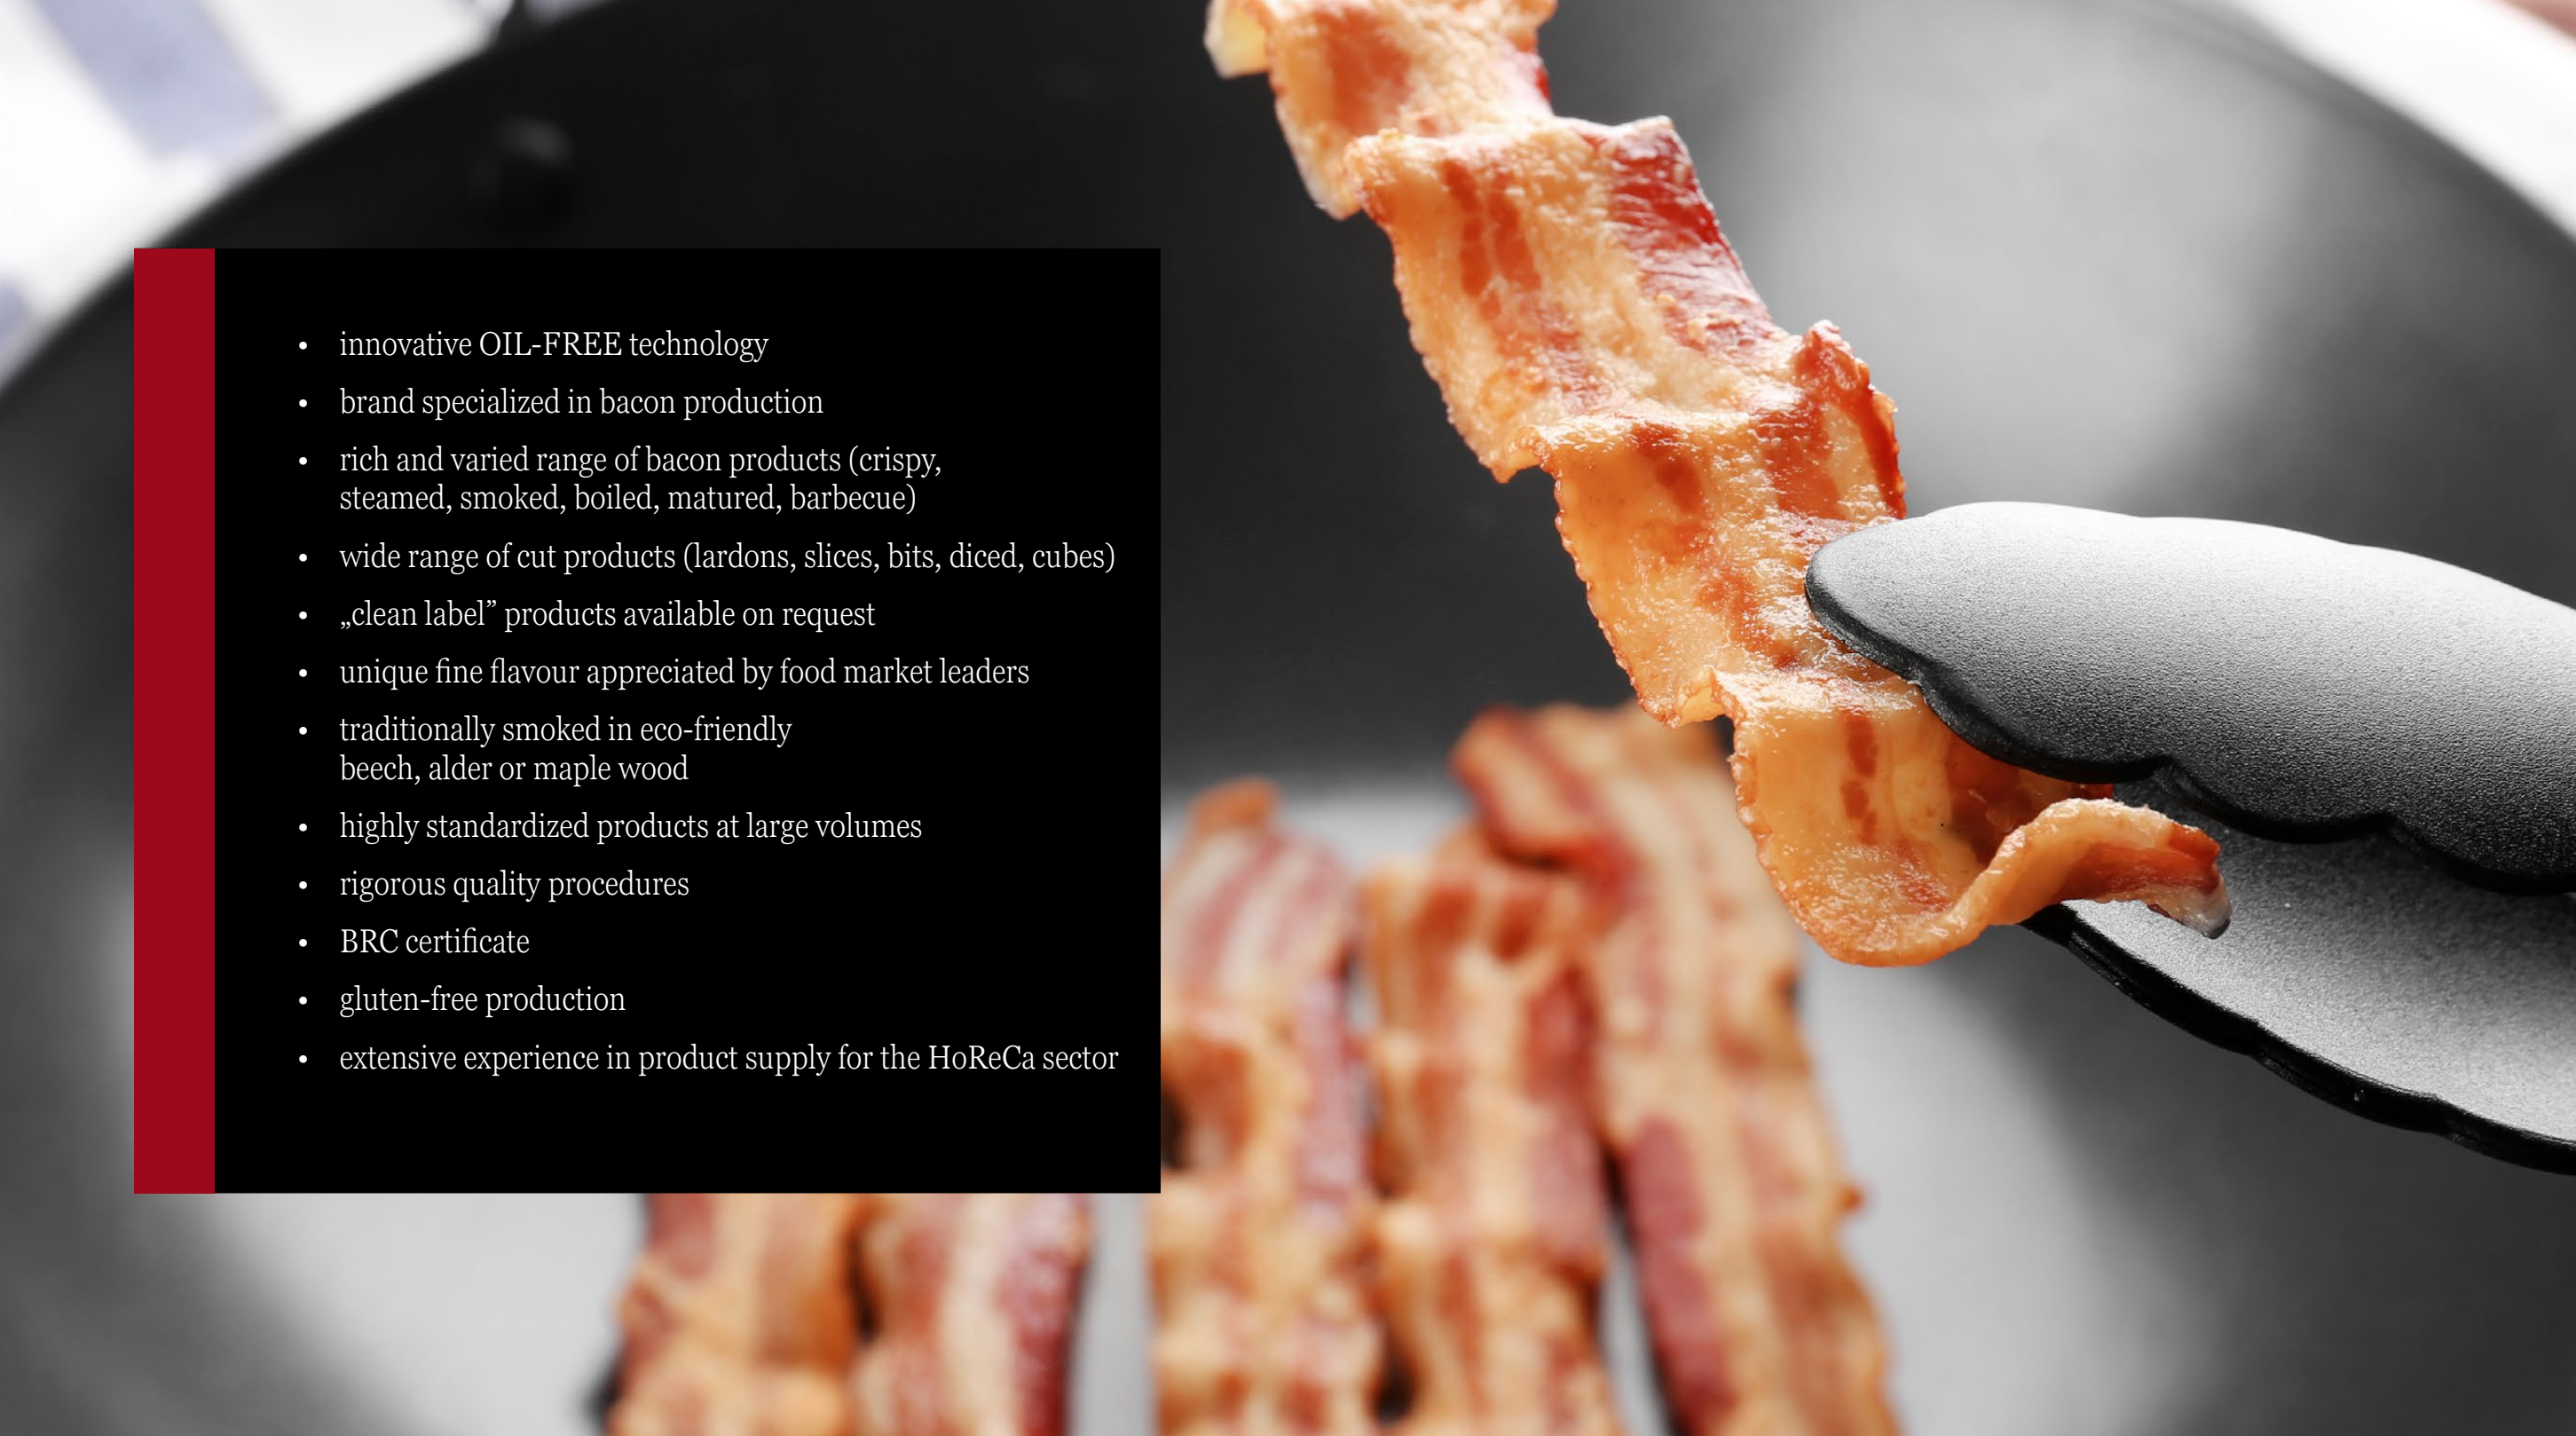

quality in the Polish pork market. Our regular product range comprises smoked, crispy, boiled, steamed and matured bacon in a variety of weights and processing options. All production activities in the plant are gluten-free.

KAMINIARZ-branded bacon has also built up a solid reputation on the European market. We have been exporting our bacon products to Scandinavia, Germany and the UK for many years. Also, we are building our reputation as a supplier to global customers in the food industry.

Based on specialist technologies for bacon processing, frying, cutting and packaging, we are able to approach every customer in a unique way, based on their particular needs, and deliver even the most non-standard orders.

We invite you to cooperation!

- 
- innovative OIL-FREE technology
 - brand specialized in bacon production
 - rich and varied range of bacon products (crispy, steamed, smoked, boiled, matured, barbecue)
 - wide range of cut products (lardons, slices, bits, diced, cubes)
 - „clean label” products available on request
 - unique fine flavour appreciated by food market leaders
 - traditionally smoked in eco-friendly beech, alder or maple wood
 - highly standardized products at large volumes
 - rigorous quality procedures
 - BRC certificate
 - gluten-free production
 - extensive experience in product supply for the HoReCa sector
